

Concerto at Telferscot Primary School

20th January 2010

What is Concerto?

- European project running in 45 cities
- Part funded by European Commission
- Bringing together energy efficiency and renewable energy
- Creating sustainable communities
- Ecostiler is a project within Concerto
- Partner cities:

Måbjerg in Denmark

Amsterdam in the Netherlands

www.concertoplus.eu

Solar Schools in Lambeth

6 schools

- Suitable roof
- Roof that's there to stay
- School welcomes the energy project

Round one

Vauxhall

Telferscot

Streatham Wells

Round two

Allan Edwards

Elmwood

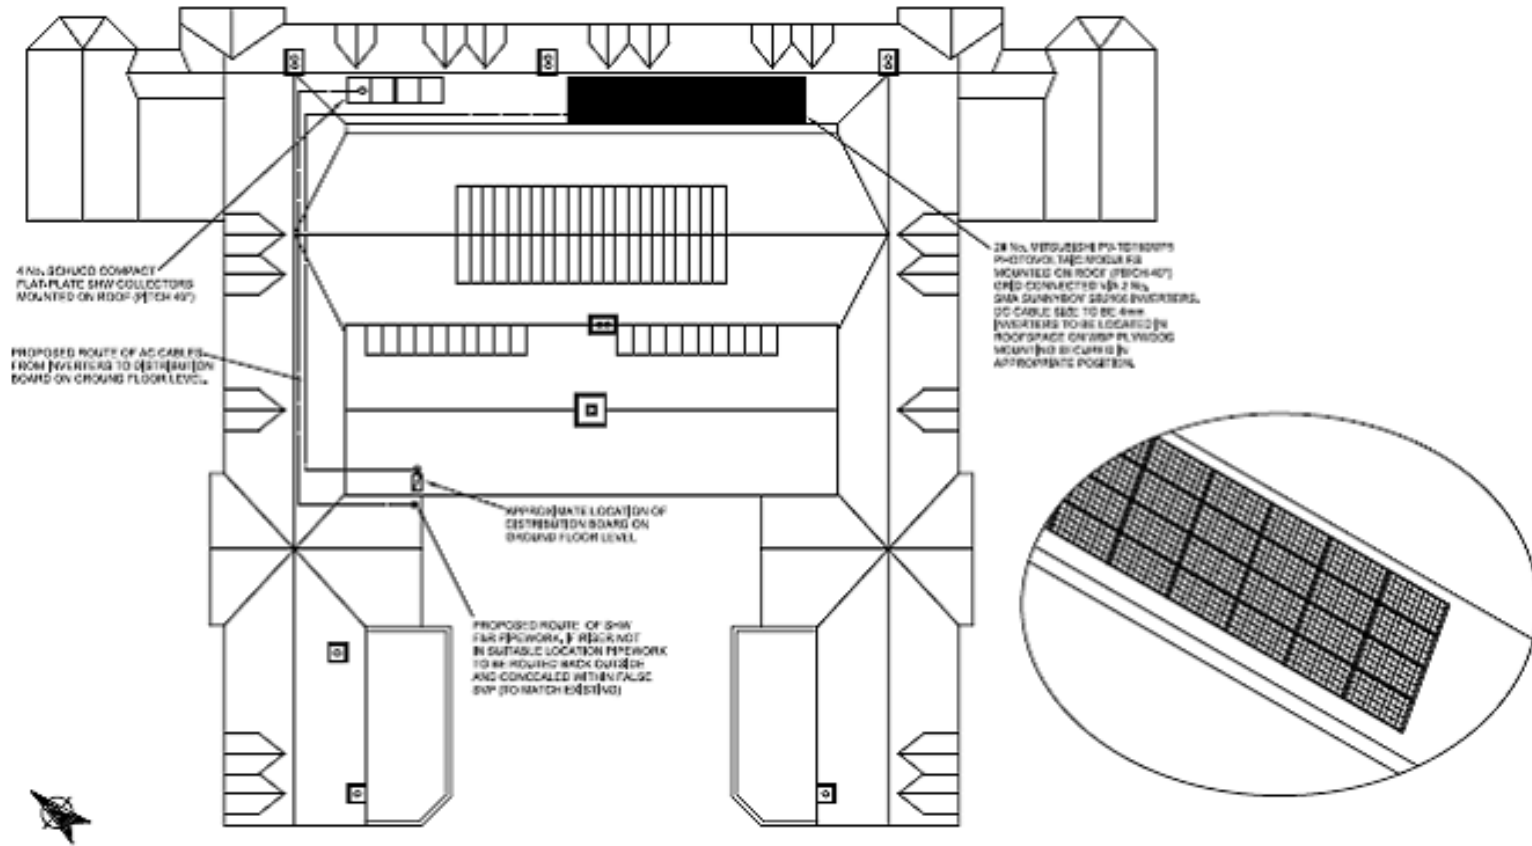

Wyvil

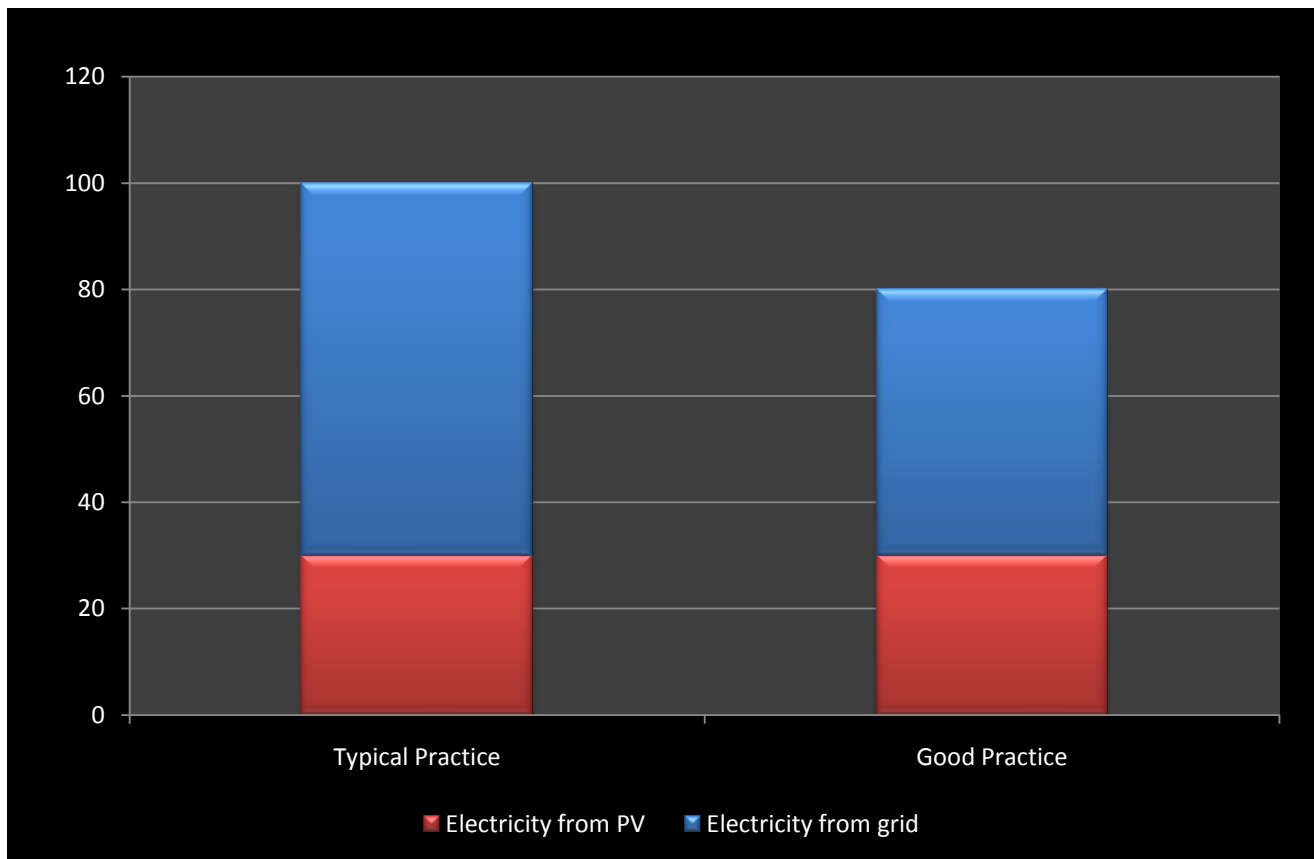

Not just a pretty panel

An energy conscious school

- ❖ Saving energy in school
- ❖ Learning about energy

Energy conscious households

- ❖ Saving energy at home

An energy aware community

- ❖ Learning about energy saving
- ❖ Learning about renewable energy

Rationale

- Climate change
- Saving money: at school and in the home
- Learning responsibility

Plans for Telferscot Primary

- Survey (already done)
- Work with Year 5
- Audit of school buildings – November 2009
- Support for Eco Schools
- Special training, e.g IT
- Develop links with local community (Hyde Farm CAN)

Key points from the audit

- High gas consumption: 223 v 157
- Overheating
- High electricity consumption: 70 v 34
- Increased use of IT
- Draughty doors
- Very confusing gas bills

Further offerings

Support for integrating energy issues into the curriculum

- ❖ Further INSET session
- ❖ Resources

Energy saving advice

- ❖ In the school buildings
- ❖ For the home

Help with community outreach

- ❖ Publicity
- ❖ Open Day
- ❖ Workshops

Thank you
